

# MS Maelys Solutions - Company Profile

## COMPANY PROFILE

Company Name MS Maelys Solutions

### Company Overview

MS Maelys Solutions Sarl Is a multi-disciplinary engineering and construction company specializing in Electrical & Instrumentation, Civil Engineering, Mechanical Engineering, Piping and Steel Fabrication, and Infrastructure Development. We deliver turnkey solutions across industrial, commercial, mining and public infrastructure projects with a focus on quality, safety, innovation, and client satisfaction

Our team of qualified engineers, technicians, and skilled artisans ensures that every project is completed on time, within budget, and to highest international standards

### Vision

To be a leading engineering and construction company in Africa and beyond, delivering sustainable infrastructure and industrial solutions that power progress and innovation

### Mission

To provide reliable, cost-effective and high-quality engineering services through innovation, teamwork, and continuous improvement while maintaining the highest safety and environmental standards

### Core Values

Integrity- We conduct business ethically and transparently

Quality- We uphold excellence in every aspect of our work

Safety- We prioritize the health and safety of all stakeholders

Innovation- We embrace technology and creativity in our solutions

Sustainability- We promote eco-friendly and long-lasting solutions

Customer Service- We tailor our services to meet each client's needs

## Our Services

### Electrical & Instrumentation

Industrial, mining and commercial electrical installations

Cable laying, termination, and testing

Control panel design and installations

SCADA and automation systems

Instrument calibration and loop checking

Power distribution and lighting systems

Maintenance and troubleshooting

Plc maintenance and programming

### Civil Engineering

Structural design and construction

Concrete works and foundations

Road construction and drainage systems

Water and sewer reticulation

Building construction and rehabilitation

Earthworks and site preparation

### Piping, Steel, and HDP Works

Piping fabrication and installation (carbon steel, stainless steel, HDPE)

Pipeline testing, flushing and commissioning

Structural steel fabrication and erection

Tank fabrication and repairs

Infrastructure Building, Plastering & Painting

Residential, commercial and industrial buildings

Roofing, tiling, and interior finishing

Renovations and maintenance works

Road surfacing and pavement construction

Mechanical Engineering

Mechanical design and installation

Pumps, valves and compressor installation

Equipment alignment and commissioning

Maintenance and overhaul of mechanical systems

Fabrication of mechanical structures and component

Plant Hire and Earth Moving

Hiring of mobile crane, trucks, front loaders, fork lifter and cherry picker

Health, Safety & Environmental (HSE)

MS Maelys Solutions maintains a strong commitment to Zero Harm in all operations. Our HSE management system ensures compliance with local and international safety standards, providing safe working environments for all personnel and subcontractors

Quality Assurance

We implement a Quality Management System (QMS) aligned the ISO 9001-2015 standards to ensure that every project meets client specifications and regulatory requirements. Regular audits, testing, and documentation ensure continuous improvement and client satisfaction

Key Clients

Mining and Industrial Companies

Energy and Power utilities

Construction and Engineering Consultants

Government Ministries

Private Developers
